The Congressional Award is a public private partnership created by Congress to promote and recognize achievement, initiative, and service in America’s youth ages 14 to 23. The Congressional Award provides a unique opportunity for young people to set and achieve personally challenging goals that build character and foster community service, personal development, and citizenship.

The Congressional Award provides a positive experience for the young participants it recognizes, the communities that benefit from their service, and the Members of Congress who have the opportunity to develop and reinforce democratic values and ideals on a personal level with our nation’s young people.
